AREA F Georgia Ethics Assessment Information

The Georgia Professional Standards Commission (PSC) has determined that ethics needs a more prominent place in teacher education programs in the state. As part of that determination, students need to pass an ethics assessment **prior to registering for their first Area F education course (EDUC 2110, EDUC 2120, or EDUC 2130)**. This assessment includes a mix of sixteen multiple choice and true/false questions based on the Georgia PSC Code of Ethics. Students are encouraged to study the code and refer to it as they attempt to complete the assessment in GeorgiaView/D2L. Below are the instructions to complete the assessment.

1. Login to your GeorgiaView/D2L home page. In the upper left-hand corner, click on "Select a course". Select "Area F SOE Ethics Assessment" (*If "Area F SOE Ethics Assessment" does not appear, contact Mr. Mendiola at rmendi01@daltonstate.edu*)
2. Once in the course, you can click on "Content", then click on "GA Code of Ethics for Educators" to review the Georgia Codes of Ethics. After reviewing the code, select "Quizzes", then the "Ethics Assessment Quiz". Read the instructions and then Click on "Start Quiz" when ready.
3. You are allowed unlimited attempts and unlimited time, but **you must reach 100% correct prior to being released to register for your first Area F education course (EDUC 2110, EDUC 2120 or EDUC 2130)**.
4. If you have any technical problems with the assessment completion, please contact David Brown at dobrown@daltonstate.edu.
5. **After you have completed your test with 100% correct, print out a copy of your scores and submit it to Mr. Mendiola.**
