## **Dalton State College AED Locations**

An **automated external defibrillator (AED)** is a portable electronic device that automatically diagnoses life-threatening cardiac arrhythmias and is able to treat them through the application of electricity which stops the arrhythmia, allowing the heart to reestablish an effective rhythm. Training to operate an AED is not required but suggested to increase operator confidence.

## **Weather Safe Areas**

Dalton State does not have specifically designed buildings with weather safe areas but designates *safer* areas of refuge in buildings. It is important to move to a lower level of the building away from glass doors and windows, preferably on the interior of the building. In hallways, it is important to close all classroom doors for more protection from glass breakage. For more information, please contact the Public Safety Department at 706-272-4461.

**Gym**- Men's and Women's Locker Rooms

**Sequoia**- Stairwells on South End of Building as Marked. Area immediately around elevator in South Part of Sequoia.
