

NSSE 2013

Engagement Indicators

Dalton State College

About Your Engagement Indicators Report

Engagement Indicators (EIs) provide a useful summary of the detailed information contained in your students' NSSE responses. By combining responses to related NSSE questions, each EI offers valuable information about a distinct aspect of student engagement. Ten indicators, based on three to eight survey questions each (a total of 47 survey questions), are organized into four themes as shown at right.

Theme	Engagement Indicator
<i>Academic Challenge</i>	Higher-Order Learning
	Reflective and Integrative Learning
	Learning Strategies
	Quantitative Reasoning
<i>Learning with Peers</i>	Collaborative Learning
	Discussions with Diverse Others
<i>Experiences with Faculty</i>	Student-Faculty Interaction
	Effective Teaching Practices
<i>Campus Environment</i>	Quality of Interactions
	Supportive Environment

Report sections

- Overview (p. 3)** Displays how average EI scores for your first-year and senior students compare with those of students at your comparison group institutions.
- Theme Reports (pp. 4-13)** Detailed views of EI scores within the four themes for your students and those at comparison group institutions. Three views offer varied insights into your EI scores:

 - Mean Comparisons**
Straightforward comparisons of average scores between your students and those at comparison group institutions, with tests of significance and effect sizes (see below).
 - Score Distributions**
Box-and-whisker charts show the variation in scores *within* your institution and comparison groups.
 - Summary of Indicator Items**
Responses to each item in a given EI are displayed for your institution and comparison groups.
- Comparisons with High-Performing Institutions (p. 15)** Comparisons of your students' average scores on each EI with those of students at institutions whose average scores were in the top 50% and top 10% of current-year participating institutions.
- Detailed Statistics (pp. 16-19)** Detailed information about EI score means, distributions, and tests of statistical significance.

Interpreting comparisons

Mean comparisons report both statistical significance and effect size. Effect size indicates the practical importance of an observed difference. An effect size of .2 is generally considered small, .5 medium, and .8 large. Comparisons with an effect size of at least .3 in magnitude (before rounding) are highlighted in the Overview.

EIs vary more among students within an institution than between institutions, like many experiences and outcomes in higher education. As a result, focusing attention on average scores alone amounts to examining the tip of the iceberg. It's equally important to understand how student engagement varies within your institution. Score distributions indicate how EI scores vary among your students and those in your comparison groups. The Institutional Report Builder and your *Major Field Report* (both to be released in the fall) offer valuable perspectives on internal variation and help you investigate your students' engagement in depth.

How Engagement Indicators are computed

Each EI is scored on a 60-point scale. To produce an indicator score, the response set for each item is converted to a 60-point scale (e.g., Never = 0; Sometimes = 20; Often = 40; Very often = 60), and the rescaled items are averaged. Thus a score of zero means a student responded at the bottom of the scale for every item in the EI, while a score of 60 indicates responses at the top of the scale on every item.

For more information on EIs and their psychometric properties, refer to the NSSE Web site: nsse.iub.edu

Engagement Indicators: Overview

Engagement Indicators are summary measures based on sets of NSSE questions examining key dimensions of student engagement. The ten indicators are organized within four themes: Academic Challenge, Learning with Peers, Experiences with Faculty, and Campus Environment. The tables below compare average scores for your students with those in your comparison groups.

Use the following key:

- ▲ **Your students' average** was significantly higher ($p < .05$) with an effect size at least .3 in magnitude.
- △ **Your students' average** was significantly higher ($p < .05$) with an effect size less than .3 in magnitude.
- No significant difference.
- ▼ **Your students' average** was significantly lower ($p < .05$) with an effect size less than .3 in magnitude.
- ▽ **Your students' average** was significantly lower ($p < .05$) with an effect size at least .3 in magnitude.

Academic Challenge: First-year students

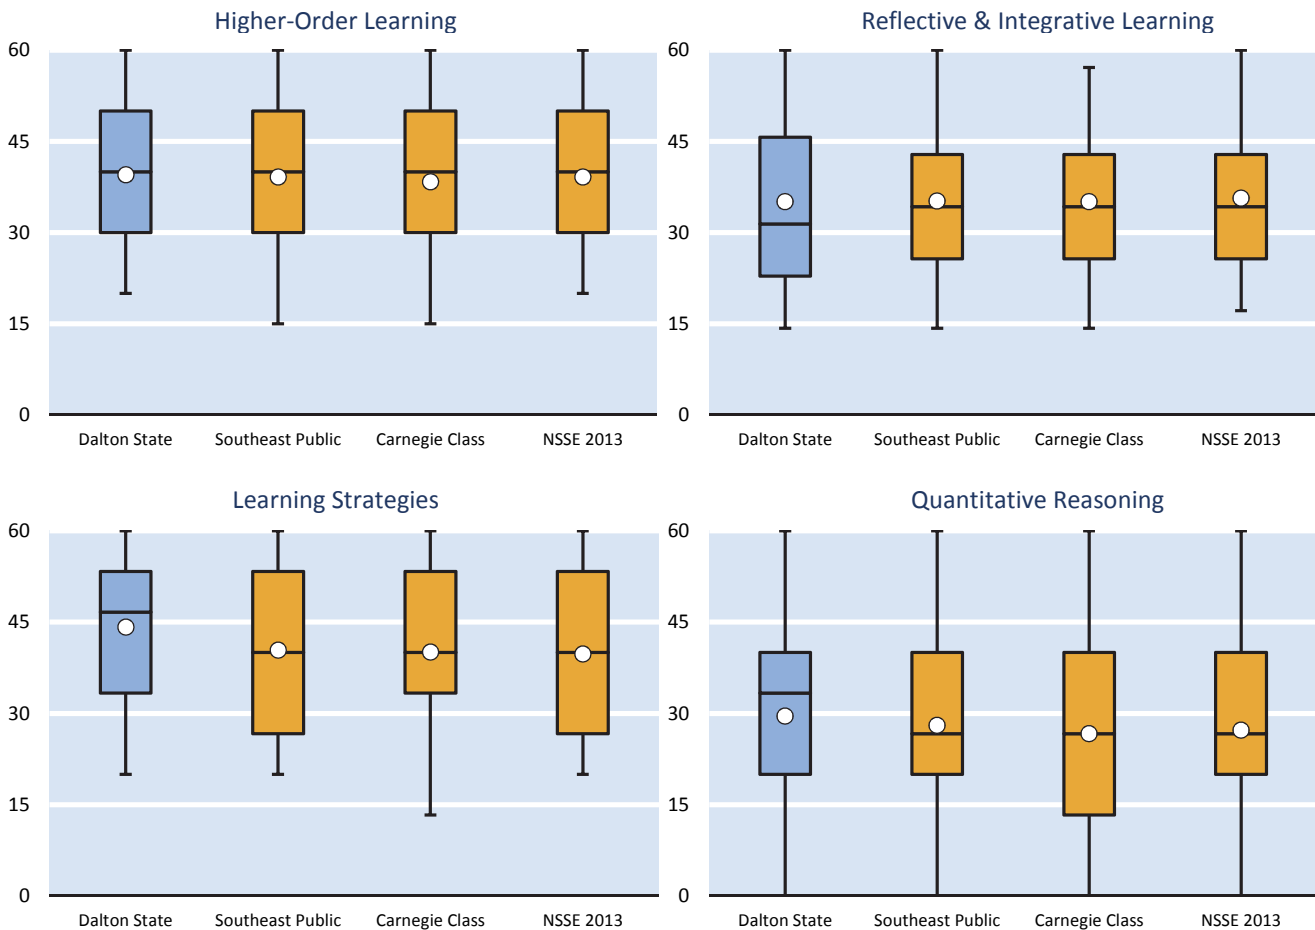

Challenging intellectual and creative work is central to student learning and collegiate quality. Colleges and universities promote student learning by challenging and supporting them to engage in various forms of deep learning. Four Engagement Indicators are part of this theme: *Higher-Order Learning*, *Reflective & Integrative Learning*, *Learning Strategies*, and *Quantitative Reasoning*. Below and on the next page are three views of your results alongside those of your comparison groups.

Mean Comparisons

Engagement Indicator	Dalton State Mean	Your first-year students compared with					
		Southeast Public Mean	Southeast Public Effect size	Carnegie Class Mean	Carnegie Class Effect size	NSSE 2013 Mean	NSSE 2013 Effect size
Higher-Order Learning	39.5	39.1	.03	38.4	.08	39.1	.03
Reflective & Integrative Learning	35.1	35.2	-.01	35.1	.00	35.7	-.05
Learning Strategies	44.2	40.4	.27	40.1	.28	39.8 *	.31
Quantitative Reasoning	29.6	28.1	.09	26.7	.17	27.3	.14

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); *p<.05, **p<.01, ***p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

Score Distributions

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

Academic Challenge: First-year students (continued)

Summary of Indicator Items

	Dalton State	Southeast Public	Carnegie Class	NSSE 2013
Higher-Order Learning				
<i>Percentage responding "Very much" or "Quite a bit" about how much coursework emphasized...</i>				
	%	%	%	%
4b. Applying facts, theories, or methods to practical problems or new situations	69 	74 	71 	74 
4c. Analyzing an idea, experience, or line of reasoning in depth by examining its parts	72 	72 	70 	73 
4d. Evaluating a point of view, decision, or information source	73 	69 	69 	70 
4e. Forming a new idea or understanding from various pieces of information	75 	68 	68 	69 
Reflective & Integrative Learning				
<i>Percentage of students who responded that they "Very often" or "Often"...</i>				
2a. Combined ideas from different courses when completing assignments	59 	54 	54 	56 
2b. Connected your learning to societal problems or issues	44 	51 	52 	53 
2c. Included diverse perspectives (political, religious, racial/ethnic, gender, etc.) in course discussions or assignments	42 	50 	48 	51 
2d. Examined the strengths and weaknesses of your own views on a topic or issue	65 	63 	65 	63 
2e. Tried to better understand someone else's views by imagining how an issue looks from his or her perspective	68 	66 	68 	66 
2f. Learned something that changed the way you understand an issue or concept	61 	63 	65 	66 
2g. Connected ideas from your courses to your prior experiences and knowledge	78 	76 	77 	78 
Learning Strategies				
<i>Percentage of students who responded that they "Very often" or "Often"...</i>				
9a. Identified key information from reading assignments	79 	81 	79 	81 
9b. Reviewed your notes after class	84 	68 	71 	66 
9c. Summarized what you learned in class or from course materials	78 	66 	64 	64 
Quantitative Reasoning				
<i>Percentage of students who responded that they "Very often" or "Often"...</i>				
6a. Reached conclusions based on your own analysis of numerical information (numbers, graphs, statistics, etc.)	50 	54 	50 	51 
6b. Used numerical information to examine a real-world problem or issue (unemployment, climate change, public health, etc.)	49 	39 	38 	38 
6c. Evaluated what others have concluded from numerical information	48 	38 	34 	37 

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

Academic Challenge: Seniors

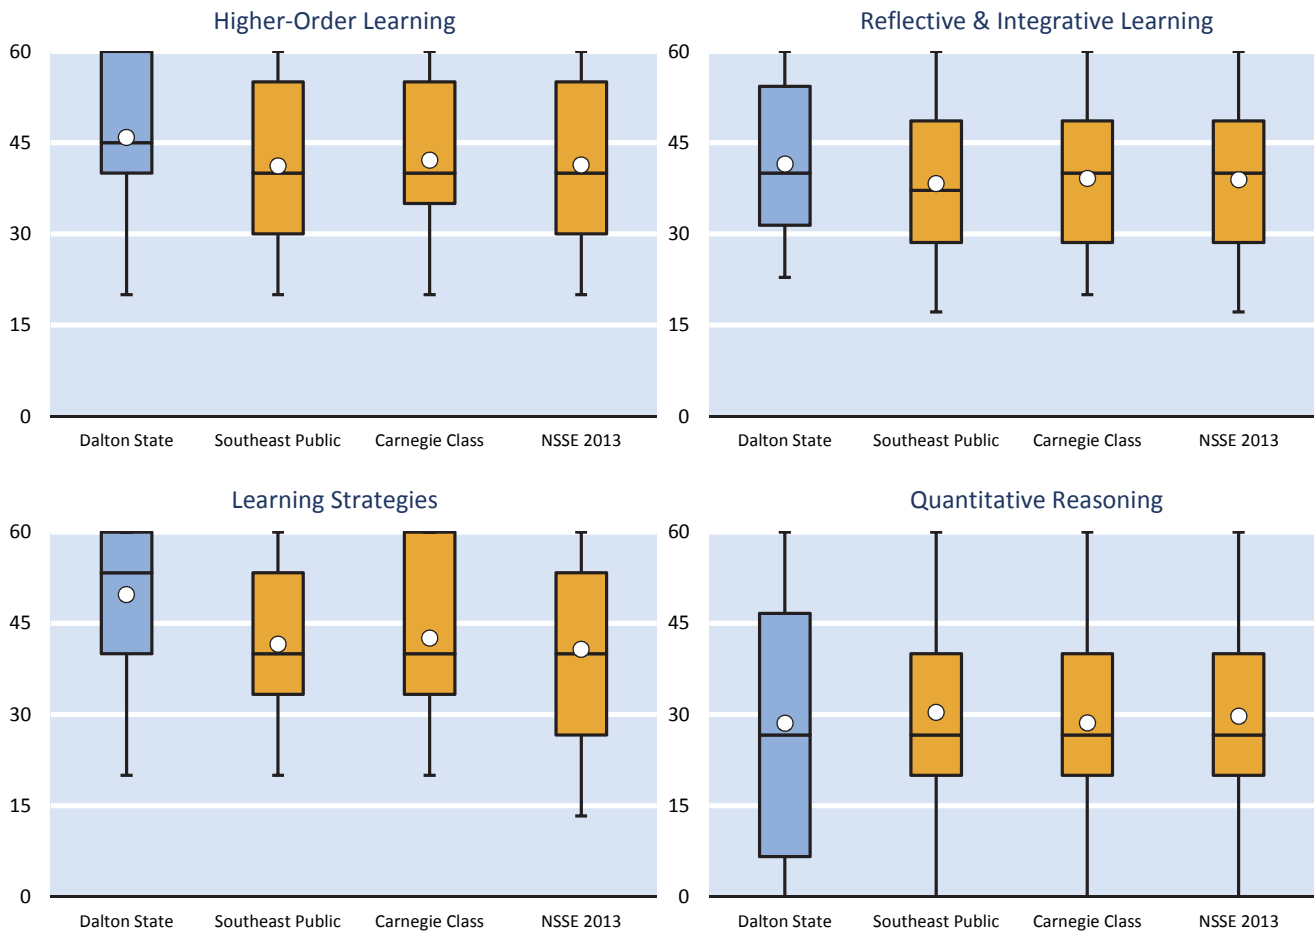

Challenging intellectual and creative work is central to student learning and collegiate quality. Colleges and universities promote student learning by challenging and supporting them to engage in various forms of deep learning. Four Engagement Indicators are part of this theme: *Higher-Order Learning*, *Reflective & Integrative Learning*, *Learning Strategies*, and *Quantitative Reasoning*. 9c. Summarized what you learned in class or from course materials	87 	68 	70 	66 
Quantitative Reasoning				
<i>Percentage of students who responded that they "Very often" or "Often"...</i>				
6a. Reached conclusions based on your own analysis of numerical information (numbers, graphs, statistics, etc.)	57 	56 	51 	54 
6b. Used numerical information to examine a real-world problem or issue (unemployment, climate change, public health, etc.)	44 	45 	44 	44 
6c. Evaluated what others have concluded from numerical information	38 	45 	41 	44 

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

Learning with Peers: First-year students

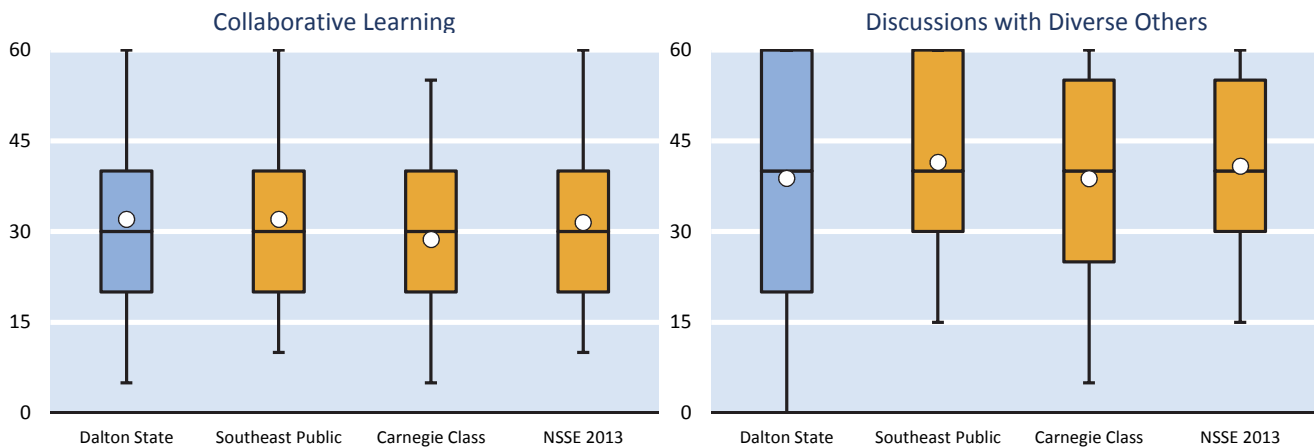

Collaborating with others in mastering difficult material and developing interpersonal and social competence prepare students to deal with complex, unscripted problems they will encounter during and after college. Two Engagement Indicators make up this theme: *Collaborative Learning* and *Discussions with Diverse Others*. Below are three views of your results alongside those of your comparison groups.

Mean Comparisons

Engagement Indicator	Dalton State Mean	Your first-year students compared with					
		Southeast Public		Carnegie Class		NSSE 2013	
		Mean	Effect size	Mean	Effect size	Mean	Effect size
Collaborative Learning	32.0	32.0	.00	28.7	.23	31.4	.04
Discussions with Diverse Others	38.8	41.4	-.16	38.7	.00	40.8	-.12

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); *p<.05, **p<.01, ***p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

Score Distributions

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

Summary of Indicator Items

Collaborative Learning

Percentage of students who responded that they "Very often" or "Often"...

	Dalton State	Southeast Public	Carnegie Class	NSSE 2013
1e. Asked another student to help you understand course material	44	49	41	48
1f. Explained course material to one or more students	55	58	52	56
1g. Prepared for exams by discussing or working through course material with other students	44	49	40	48
1h. Worked with other students on course projects or assignments	52	49	43	50

Discussions with Diverse Others

Percentage of students who responded that they "Very often" or "Often" had discussions with...

	Dalton State	Southeast Public	Carnegie Class	NSSE 2013
8a. People from a race or ethnicity other than your own	63	72	66	71
8b. People from an economic background other than your own	62	74	67	73
8c. People with religious beliefs other than your own	58	69	65	68
8d. People with political views other than your own	69	72	66	70

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

Learning with Peers: Seniors

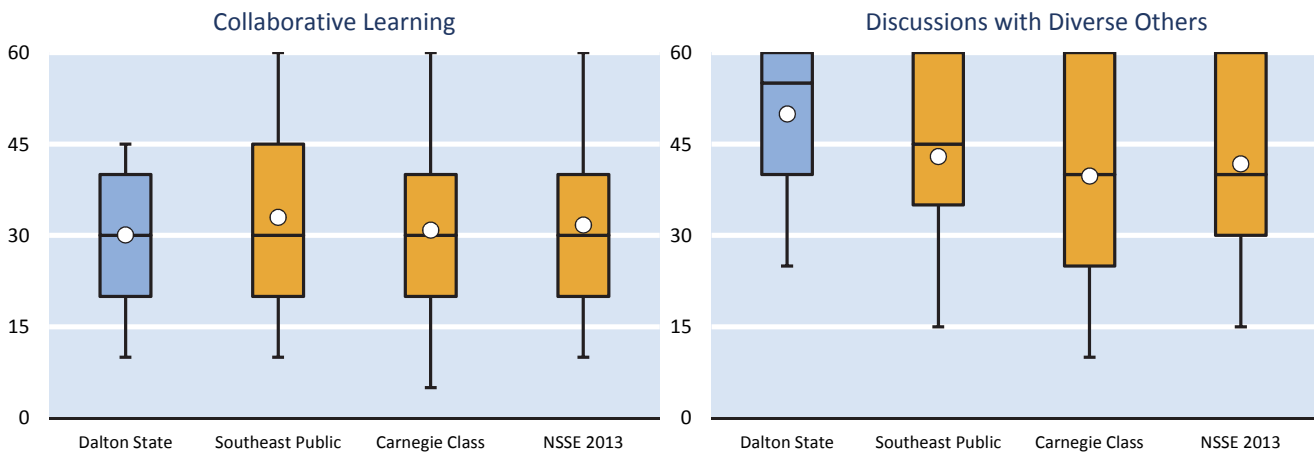

Collaborating with others in mastering difficult material and developing interpersonal and social competence prepare students to deal with complex, unscripted problems they will encounter during and after college. Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

Summary of Indicator Items

Collaborative Learning

Percentage of students who responded that they "Very often" or "Often"...

	Dalton State	Southeast Public	Carnegie Class	NSSE 2013
1e. Asked another student to help you understand course material	30	41	34	38
1f. Explained course material to one or more students	59	60	55	57
1g. Prepared for exams by discussing or working through course material with other students	45	48	42	44
1h. Worked with other students on course projects or assignments	50	63	59	63

Discussions with Diverse Others

Percentage of students who responded that they "Very often" or "Often" had discussions with...

	Dalton State	Southeast Public	Carnegie Class	NSSE 2013
8a. People from a race or ethnicity other than your own	83	75	62	72
8b. People from an economic background other than your own	90	77	70	75
8c. People with religious beliefs other than your own	87	72	67	70
8d. People with political views other than your own	94	75	69	72

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

Experiences with Faculty: First-year students

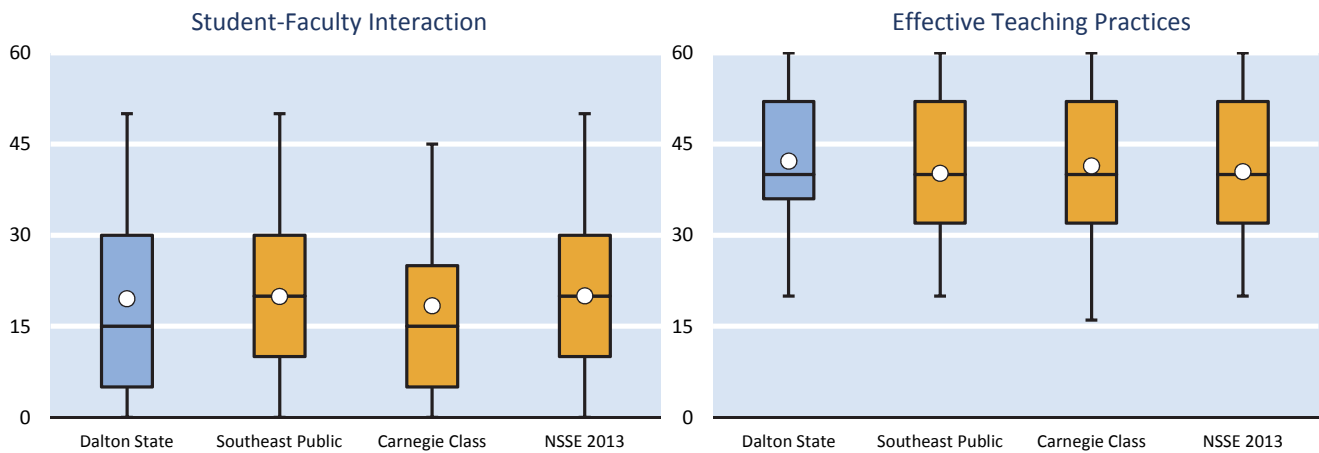

Students learn firsthand how experts think about and solve problems by interacting with faculty members inside and outside of instructional settings. As a result, faculty become role models, mentors, and guides for lifelong learning. In addition, effective teaching requires that faculty deliver course material and provide feedback in student-centered ways. Two Engagement Indicators investigate this theme: *Student-Faculty Interaction* and *Effective Teaching Practices*. Below are three views of your results alongside those of your comparison groups.

Mean Comparisons

Engagement Indicator	Dalton State Mean	Your first-year students compared with					
		Southeast Public Mean	Effect size	Carnegie Class Mean	Effect size	NSSE 2013 Mean	Effect size
Student-Faculty Interaction	19.5	19.9	-.02	18.4	.08	20.0	-.03
Effective Teaching Practices	42.2	40.2	.15	41.4	.05	40.4	.13

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); *p<.05, **p<.01, ***p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

Score Distributions

Effective Teaching Practices

Percentage responding "Very much" or "Quite a bit" about how much instructors have...

	Dalton State	Southeast Public	Carnegie Class	NSSE 2013
5a. Clearly explained course goals and requirements	96	83	84	83
5b. Taught course sessions in an organized way	91	82	84	82
5c. Used examples or illustrations to explain difficult points	100	80	81	79
5d. Provided feedback on a draft or work in progress	84	62	67	62
5e. Provided prompt and detailed feedback on tests or completed assignments	84	69	71	68

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

Campus Environment: First-year students

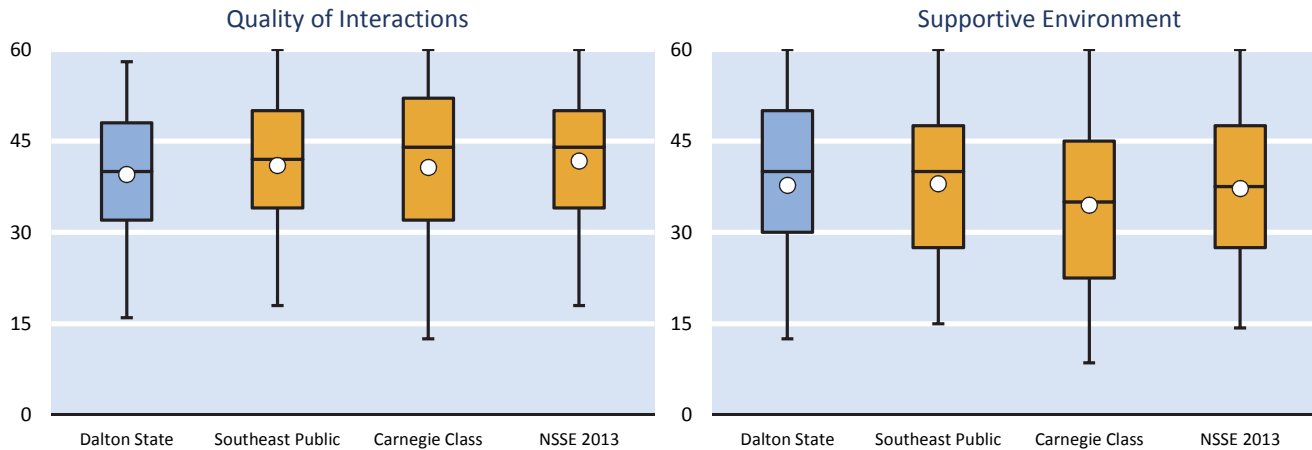

Students benefit and are more satisfied in supportive settings that cultivate positive relationships among students, faculty, and staff. Two Engagement Indicators investigate this theme: *Quality of Interactions* and *Supportive Environment*. Below are three views of your results alongside those of your comparison groups.

Mean Comparisons

Engagement Indicator	Dalton State Mean	Your first-year students compared with					
		Southeast Public Mean	Effect size	Carnegie Class Mean	Effect size	NSSE 2013 Mean	Effect size
Quality of Interactions	39.5	41.0	-.12	40.6	-.08	41.7	-.18
Supportive Environment	37.7	38.0	-.02	34.4	.22	37.2	.04

Notes: Results weighted by gender and enrollment status (and institution size for comparison groups); *p<.05, **p<.01, ***p<.001 (2-tailed); Effect size: Mean difference divided by pooled standard deviation; Symbols on the summary page are based on effect size and p before rounding.

Score Distributions

Notes: Each box-and-whiskers chart plots the 5th (bottom of lower bar), 25th (bottom of box), 50th (middle line), 75th (top of box), and 95th (top of upper bar) percentile scores. The dot represents the mean score.

Summary of Indicator Items

Quality of Interactions

Percentage rating a 6 or 7 on a scale from 1="Poor" to 7="Excellent" their interactions with...

	Dalton State	Southeast Public	Carnegie Class	NSSE 2013
13a. Students	69	59	56	60
13b. Academic advisors	39	46	46	49
13c. Faculty	36	48	54	51
13d. Student services staff (career services, student activities, housing, etc.)	33	43	44	44
13e. Other administrative staff and offices (registrar, financial aid, etc.)	35	40	46	42

Supportive Environment

Percentage responding "Very much" or "Quite a bit" about how much the institution emphasized...

	Dalton State	Southeast Public	Carnegie Class	NSSE 2013
14b. Providing support to help students succeed academically	80	78	74	78
14c. Using learning support services (tutoring services, writing center, etc.)	82	79	74	78
14d. Encouraging contact among students from diff. backgrounds (soc., racial/eth., relig., etc.)	69	57	55	58
14e. Providing opportunities to be involved socially	65	74	66	72
14f. Providing support for your overall well-being (recreation, health care, counseling, etc.)	75	74	61	72
14g. Helping you manage your non-academic responsibilities (work, family, etc.)	53	44	41	44
14h. Attending campus activities and events (performing arts, athletic events, etc.)	57	72	57	68
14i. Attending events that address important social, economic, or political issues	46	55	46	53

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

Campus Environment: Seniors

Students benefit and are more satisfied in supportive settings that cultivate positive relationships among students, faculty, and staff. Two Engagement Indicators investigate this theme: *Quality of Interactions* and *Supportive Environment*. Below are three views of your results alongside those of your comparison groups.

Supportive Environment

Percentage responding "Very much" or "Quite a bit" about how much the institution emphasized...

	Dalton State	Southeast Public	Carnegie Class	NSSE 2013
14b. Providing support to help students succeed academically	76	73	70	72
14c. Using learning support services (tutoring services, writing center, etc.)	78	68	64	67
14d. Encouraging contact among students from diff. backgrounds (soc., racial/eth., relig., etc.)	64	52	50	52
14e. Providing opportunities to be involved socially	71	70	61	65
14f. Providing support for your overall well-being (recreation, health care, counseling, etc.)	50	67	52	62
14g. Helping you manage your non-academic responsibilities (work, family, etc.)	22	33	30	32
14h. Attending campus activities and events (performing arts, athletic events, etc.)	58	64	53	56
14i. Attending events that address important social, economic, or political issues	40	49	42	45

Notes: Refer to your *Frequencies and Statistical Comparisons* report for full distributions and significance tests. Item numbering corresponds to the survey facsimile included in your *Institutional Report* and available on the NSSE Web site.

This page intentionally left blank.

Comparisons with Top 50% and Top 10% Institutions

The results below compare the engagement of your first-year and senior students with those attending two groups of institutions identified by NSSE for their high average levels of student engagement:

- (a) institutions with average scores placing them in the top 50% of all current-year NSSE institutions, and
- (b) institutions with average scores placing them in the top 10% of all current-year NSSE institutions.

While the average scores for *most* institutions are below the mean for the top 50% or top 10%, your institution may show areas of distinction where your average student was *as engaged* as (or even *more engaged* than) the typical student at high-performing institutions. A check mark (✓) signifies those comparisons where your average score was at least comparable to that of the high-performing group. However, the absence of a significant difference between your score and that of the high-performing group does not mean that your institution was a member of that group.

It should be noted that most of the variability in student engagement is *within*, not between, institutions. Even "high-performing" institutions have students with engagement levels below the average for all institutions.

Notes: Precision-weighted means (produced by Hierarchical Linear Modeling) were used to determine the top 50% and top 10% institutions for each Engagement Indicator, separately for first-year and senior students. Using this method, Engagement Indicator scores of institutions with relatively large standard errors were adjusted toward the mean of all students, while those with smaller standard errors received smaller corrections. As a result, schools with less stable data—even those with high average scores—may not be among the top scorers. NSSE does not publish the names of the top 50% and top 10% institutions because of our commitment not to release institutional results and our policy against ranking institutions.

Results weighted by gender and enrollment status (and institution size for comparison groups); *p<.05, **p<.01, ***p<.001 (2-tailed); Effect size: Mean difference divided by the pooled standard deviation.

a. Results weighted by gender and enrollment status (and institutional size for comparison groups).

b. Standard deviation is a measure of the amount the individual scores deviate from the mean of all the scores in the distribution.

c. Standard error of the mean, used to compute a confidence interval (CI) around the sample mean. For example, the 95% CI is the range of values that is 95% likely to contain the true population mean, equal to the sample mean +/- 1.96 * SEM.

d. A percentile is the point in the distribution of student-level EI scores at or below which a given percentage of EI scores fall.

e. Degrees of freedom used to compute the t-tests. Values vary from the total Ns due to weighting and whether equal variances were assumed.

f. Statistical significance represents the probability that the difference between the mean of your institution and that of the comparison group occurred by chance.

g. Effect size is the mean difference divided by the pooled standard deviation.

a. Results weighted by gender and enrollment status (and institutional size for comparison groups).

b. Standard deviation is a measure of the amount the individual scores deviate from the mean of all the scores in the distribution.

c. Standard error of the mean, used to compute a confidence interval (CI) around the sample mean. For example, the 95% CI is the range of values that is 95% likely to contain the true population mean, equal to the sample mean \pm 1.96 * SEM.

d. A percentile is the point in the distribution of student-level EI scores at or below which a given percentage of EI scores fall.

e. Degrees of freedom used to compute the t-tests. Values vary from the total Ns due to weighting and whether equal variances were assumed.

f. Statistical significance represents the probability that the difference between the mean of your institution and that of the comparison group occurred by chance.

g. Effect size is the mean difference divided by the pooled standard deviation.
